Re: Review of Depreciation Expense in 1997 Annual Report File DWCCA-2060-JPL

Dear Mr. Wilmet:

Paragraph No. 1 of our letter dated December 2, 1996, with regard to analytical review of the 1995 annual report, authorized a revised schedule of depreciation rates which was enclosed with that letter, to be effective on January 1, 1997. Based upon depreciation accruals on page F-8, lines 4-9, these revised rates were apparently not used during 1997. Enclosed with this letter is a copy of the new depreciation rates, including a rate for Account 397.1, SCADA Equipment, which is listed separately from primary Account 397 in the 1997 annual report. Please note that these depreciation rates should be used beginning in 1998. If you have any questions, please feel free to contact me at (608) 266-1282.

Sincerely,

James P. Luckow

Re: 1997 Analytical Review File DWCCA-2060-RL

Dear Mr. Wilmet:

The Public Service Commission (PSC) is in the process of completing an analytical review of your utility's 1997 annual report. The purposes of an analytical review are to detect possible reporting or accounting related errors and to identify significant fluctuations from established trends in reported data not sufficiently explained in the annual report. It is our hope that our review will supply information that will enable us to better provide guidance to your utility regarding proper utility accounting and the preparation of future annual reports. In order to complete this review, we request the following information:

1. During our review of the Services schedule, we noted you reported 2 eight inch metal services for 1997, first of year, page W-15. However, you reported 3 eight inch metal services for end of year 1996. Please explain.

We appreciate your cooperation in providing the above information. These recommendations are intended to provide accounting assistance and should not be construed as criticisms of utility personnel. If you have any questions, please feel free to contact me at (608) 266-1491. Please respond within 30 days of this letter. If we have no questions regarding your response, you can consider the review closed.

Sincerely,

Roselee Losenegger

PROPERTY TAX EQUIVALENT (WATER)

1. No property tax equivalent shall be determined for sewer utilities or town sanitary district water utilities.
2. Tax rates are those issued in November (usually) of the year being reported and are available from the municipal treasurer. Report the tax rates in mills to six (6) decimal places.
3. The assessment ratio is available from the municipal treasurer. Report the ratio as a decimal to six (6) places.
4. The utility plant balance first of year should include the gross book values of plant in service, property held for future use and construction work in progress.
5. An "other tax rate" is included in the "Net Local and School Tax Rate Calculation" to the extent that it is local. An example is a local library tax. Fully explain the rate in the Property Tax Equivalent schedule footnotes.
6. The Property Tax Equivalent to be reported for the year is determined pursuant to Wis. Stat § 66.069(1)(c). Report the higher of the current year calculation or the tax equivalent reported in the 1994 PSC annual report, unless, the municipality has authorized a lower amount, then that amount is reported as the property tax equivalent.
7. If the municipality has authorized a lower amount, the authorization description and date of the authorization must be reported in the Property Tax Equivalent schedule footnotes.
